

North Central Group Australian Organisation for Quality (Vic)

PASTA MASTER *A TASTE OF ITALY WITH QUALITY IN MIND*

Welcome to our second meeting for 2009.

Pasta Master has grown from fairly humble beginnings to what is now a major food manufacturer. This AOQ meeting is an opportunity to see the production of pasta and pasta sauces for major retail outlets.

The management team at Pasta Master will take us through the history of the business, the challenges of food safety and the quality management systems that they have developed and implemented to ensure the highest quality possible of a fast moving consumer good.

The meeting will involve a factory tour and a presentation about the quality management program and food safety systems required for conformance.

Vik Sabaliauskas
President
